

Occupancy Intelligence: Infinity Sensor

Meet Infinity—the latest innovation in occupancy intelligence. Designed for the dynamic demands of modern workplaces, Infinity offers unparalleled insights with a 10 year battery life.

Paired with Meridian, Infinity goes beyond occupancy detection. Together, they transform raw workplace signals into Occupancy Intelligence for today and Predictive Planning for tomorrow—helping leaders reduce costs, optimize design, and confidently shape the future of their workplace.

Next-Gen AI Chip

AI-powered space change detection: knows what's a person, what's a chair, and when your layout changes.

10 Year Battery Life

Greater Field of View

One sensor. Massive reach.

5x Performance

Lower Environmental Impact

SCAN ME

Effortless Magnetic Install

Installs in seconds, it just clicks. Seriously.

Limitless Colors

Seamless with Meridian

Infinity data integrates instantly with Meridian for the full workplace picture.

Trusted by Enterprises Around the World

VergeSense:

The Workplace AI Company

VergeSense, the Workplace AI Company, powers smarter workplaces with Meridian. By unifying signals from sensors and systems, we deliver real-time insights and predictive planning to reduce costs, right-size portfolios, and improve experience.

Planning

Forecast demand, right-size portfolios, and model headcount changes.

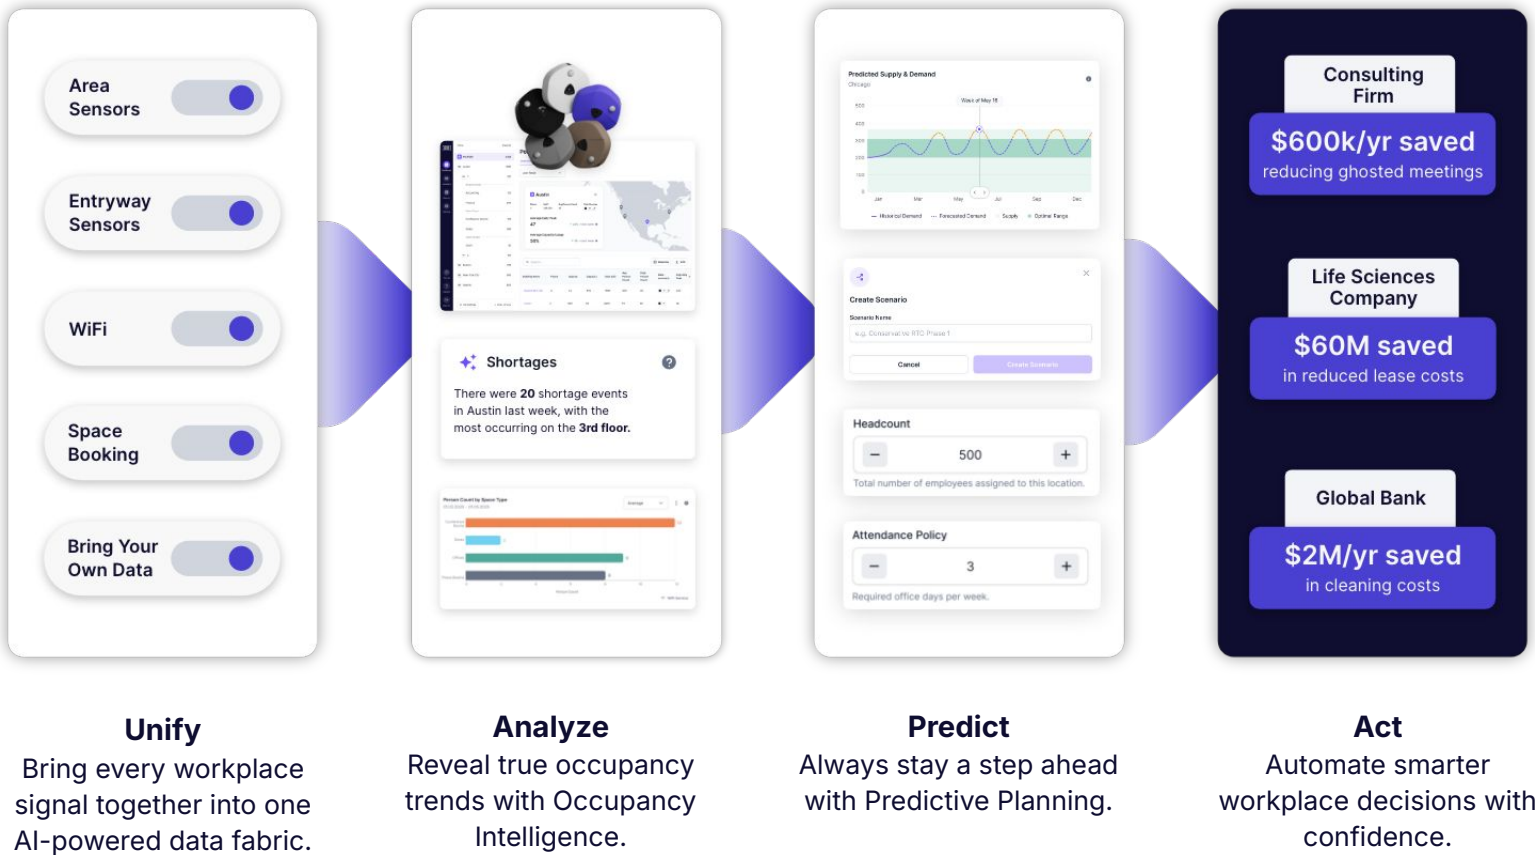

Design

Test layouts and space mixes with ROI-backed redesign recommendations.

Automation

Trigger real-time workplace actions and policies powered by AI.

"We are on a mission to completely digitize the real estate management experience, and VergeSense is at the center of that digital transformation"

Director of Innovation & Industry
